

KENYA PIPELINE COMPANY

INTEGRATED MANAGEMENT SYSTEMS POLICY

KPC is committed to safe, reliable, and efficient storage, transportation and dispensing of quality oil and gas products and services that meets and exceeds the expectations of our customers and stakeholders. To achieve this, KPC shall comply with the requirements of the integrated management systems (IMS) as outlined in current versions of ISO 9001, ISO 14001 & ISO 45001, and other management system requirements implemented and maintained by KPC.

To realize these, KPC commits to:

- a) Ensuring that Oil and Gas products handled within KPC are subjected to tests as per applicable legal and customer requirements.
- b) Providing safe and healthy working conditions for the prevention of work-related injury & ill-health.
- c) Eliminate hazards, control environmental aspects, reduce risks and mitigate environmental impacts.
- d) Protection of the environment from adverse environmental impacts through prevention of pollution and promotion of ecological sustainability.
- e) Fulfilling all applicable compliance obligations.
- f) Consultation and participation of workers and/or workers' representatives in matters relating to Occupational Health and Safety.
- g) Creating awareness to workers and other interested parties about our IMS standards and practices and fostering their commitment through feedback mechanism.
- h) Continually improve integrated management systems through reviews and enhancement of IMS performance in line with the requirements of relevant standards.

This policy statement sets a framework for establishing IMS objectives and shall be reviewed periodically and when necessary to reflect changing conditions.

MANAGING DIRECTOR

W. Wang
